STNOPSIS OF PRECEDING CHAPTERS. At the Adirondack lodge of Dysart Van Rensselaer and his wife Victoria are gathered Dysart's brother Robin, Madge Ashley, a divorcee; Bertram and Lucille Goodail and Philip Merriman. Dysart is a close student of heredity, and tells the party he believes at least one of a criminal's descendants will develop criminal instincts. Victoria shudders at her husband's views and at another time expresses abhorrence at the idea of having children of her own. Lucille gives Victoria money for a purpose unknown to her husband. When Victoria does not appear for breakfast Madge goes to her room and finds her murdered.

Frederick Blaisdell, another guest, arrives on the fatal morning.

The noted detective, Franklin Yorke, arrives and takes the helm. SYNOPSIS OF PRECEDING CHAPTERS.

"I should very much like to be present if the doctor has no objection. He can clear up one or two points for me."
Yorke's tone was a blend of deference and condescension which left the

"I shall be happy to give Mr. Yorke any assistance in my power," he said rather stiltedly. "Do you wish to accompany us, Mr. Rensselear?"

"I understand, Mr. Van Rensselaer, that you are interested in photography—can you let me have a camera—a small one with a good lens carrying film rolls instead of plates would suit my purpose. I should like a few snapshots before the police arrive and the room upstairs is disarranged."

"Carnot recall it now. In what town in New England did they live, Mrs. Ashley?"

"Certainly; I've got a kodak which will be just the thing you need, I think. Will three-and-a-quarter by four-and-a-quarter be sufficiently large? It's in my darkroom; I'll load it at once."

"It will do perfectly. I'll come with you," said Yorke, significantly,
They left the house by a side door and started across the clearing toward the toolhouse,

When they were well beyond earshot from the house Yorke resumed quietly:
"There are a few minor details I should like to tell you which it was necessary or advisable to mention before all the others. A small, sharp, vegetable knife was found beside the body, crusted with blood, but it played no actual part in the crime which I can no actual part in the crime which I can

see as yet.
"The doctor's examination proves that toned conversation, proclaimed the reappearance of the doctor and Madge, who had accompanied him.

Freddie deferred the continuance of his interrogation until a later time, and the two men went to hear the report of Dysart's condition.

It was most reassuring on the whole. Mr. Van Rensselaer had received a terrific nervous shock, the sudden reaction of which had produced a state of extreme prostration. He had been without difficulty placed under an opiate. He should be kept very quiet throughout the day and night, and on the following the doctor's examination proves that "The doctor's examination proves that the murder was committed with a long. "Yes. I was born and grew up there. I am seven years older than she—I am thirty-six. Mr. Yorke, although I am not anxious to have that on record in any court testimony. I remember her as a very tiny thing. Our homes were near and we became inseparable."

"I have heard of him, of course."

Yorke looked at her with new interest in his glance, then asked: "Was Mrs. Van Rensselger's whole life, prior to her marriage, spent in Brookmede?"

"We were away at school together for three years. After her mother's death she went twice to Europe with Miss Broditch, a distant relative of her father. She frequently visited friends—it was during one of her visits to her mother's aunt in New York that she met Dysart."
